BOC issues regulations on VASP accreditation

- ***Customs Administrative Order (CAO) No. 14-2020 provides new guidelines on accreditation and supervision of value-added service providers (VASP) providing BOC front-end ICT services***
- ***CAO 14-2020 implements the Customs Modernization and Tariff Act's mandate that customs should accept electronic documents as an alternative to paper-based documentary requirements***

THE Bureau of Customs (BOC) has issued new guidelines on the accreditation and supervision of value-added service providers (VASP) providing front-end information and communications technology (ICT) services to the agency.

Customs Administrative Order (CAO) 14-2020 establishes the administrative and operational guidelines for the accreditation and supervision of VASPs.

Accreditation of VASPs is meant to allow BOC to "harness the technical expertise and maximize the participation of the private sector" in its delivery of front-end customs ICT services, the CAO states.

CAO 14-2020, signed by Finance Secretary Carlos Dominguez III on October 20

BOC issues regulations...

Continued from previous page

and Customs Commissioner Rey Leonardo Guerrero on October 8, also implements Section 109 of the Customs Modernization and Tariff Act (CMTA).

The section states that BOC should utilize ICT to enhance customs control and support a cost-effective, efficient, and world-class paperless customs operations.

According to the book Understanding International Trade, Tariff and Customs by former customs deputy commissioner Atty. Agaton Teodoro Uvero, Section 109 "legally mandates customs to accept electronic documents (including permits, licenses and certificates) and to recognize their legal effect, validity and enforceability as an alternative to paper-based documentary requirements."

Under CAO 14-2020, electronic data transmitted by VASPs for purposes of customs procedures, such as documents, permits, licenses or certificates, will be acceptable and will have the legal effect, validity or enforceability as any other document or legal writing.

Once the VASP complies with requirements, BOC shall recognize the authenticity and reliability of electronic documents by transmitting acceptance or approval of these documents through electronic data messages or electronic documents.

VASPs should provide technical solutions to BOC's electronic customs system; provide technical assistance nationwide; provide support to BOC in prosecuting violations of tariff and customs laws; receive and transmit electronic data to concerned BOC offices and stakeholders; and act on the responses and messages returned by the BOC gateway/system, among others.

A VASP Accreditation Committee that will accredit, supervise, and control VASPs will be constituted by the Customs commissioner through a separate customs special order.

The accreditation of VASPs will be valid for a period of three years and may be renewed after evaluation of their performance as measured by the service level agreement (SLA) and their continued compliance with the eligibility requirements. The renewed accreditation will be valid for a period of one year.

BOC may carry out further accreditation process for new applicants after three years of operation of the initially accredited VASP/s.

BOC may pre-terminate the accreditation of any VASP on the following grounds:

- Violation of the provisions of CAO 14-2020 and related rules and regulations, including the SLA and non-disclosure agreement
- Violation of the CMTA, Data Privacy Act, Philippine Competition Act, and other related laws
- Actions inimical to the security and integrity of BOC operations
- Other grounds as provided under Section 14 (notification of Customs systems update) of CAO 14-2020 or as determined by BOC

VASPs unable to meet their SLA targets for service availability, incident response time, incident resolution time, and root cause analysis will face penalties stated in the SLA. BOC may also revoke or pre-terminate their accreditation.

BOC may collect from the VASP a service fee for monitoring and supervision of the VASP system. The supervision fee is normally equivalent to 10% of the fees collected in accordance with the published rate.

BOC should also notify VASPs on upcoming changes in customs procedures to enable VASPs to tweak their systems to comply with the new procedural and data requirements. BOC should also notify the VASPs in case of pre-termination of the accreditation due to the VASP system having become obsolete or incompatible with the new customs processing system.

Expressway tolls waived on New Year's Eve, Day

TOLL expressway operators San Miguel Corp (SMC) and Metro Pacific Tollways Corp. (MPTC) will waive toll fees on certain hours during New Year's Eve and New Year's Day.

Both SMC and MPTC said they will waive fees in its tollways from 10 p.m. Dec. 31 to 6 a.m. Jan. 1.

SMC operates Southern Tagalog Arterial Road, Southern Luzon Expressway, Skyway, Ninoy Aquino International Airport Expressway, and Tarlac-Pangasinan-La Union Expressway.

Toll-free travel will also be enjoyed by motorists on MPTC's North Luzon Expressway, Subic-Clark-Tarlac Expressway, Manila-Cavite Expressway, C5 Link, and Cavite-Laguna Expressway.

Both toll road operators previously waived toll fees during Christmas Eve and Christmas Day.

PCCI seeks gov't tie-up for COVID vaccine logistics

- ***The Philippine Chamber of Commerce and Industry (PCCI) is calling for public-private partnership to ensure success in the transport and storage of COVID-19 vaccines in the Philippines***
- ***Currently, the country has no cold chain infrastructure that can handle COVID-19 vaccines***
- ***PCCI is consulting with industry players in the cold chain and supply chain businesses, transport, and power generation sectors to step up readiness of cold storage infrastructure and delivery logistics for the vaccine***
- ***Consultations are also being conducted with local chambers on possible vaccination centers where these facilities may be put up***

THE Philippine Chamber of Commerce and Industry (PCCI) is calling for a partnership between the public and private sector to ensure success in the transport and storage of COVID-19 vaccines in the Philippines.

"We need dedicated transport service and storage spaces to keep the integrity of the vaccines. These require massive investment and coordination, a herculean task that cannot be done by government alone," PCCI president Benedicto V. Yujuico said in a statement.

Yujuico noted there is currently no cold chain infrastructure in the country that can handle COVID-19 vaccines that require meticulous handling and sub-zero cold chain facilities.

"There are no facilities in the country that can handle -80°C. The lowest temperature our cold storage facilities can go down to is -20°C to 25°C. The same is true for refrigerated trucks," Yujuico said.

Cold storage facilities and refrigerated trucks in the country also handle mixed cargo such as fish, meat, dairy, fruit and vegetables. Yujuico noted the danger of vaccines being contaminated if co-stored in these facilities.

Yujuico said PCCI is already consulting with industry players in the cold chain and supply chain businesses, transport (airfreight, shipping and trucking), and power generation, and is conducting an inventory of facilities to step up the readiness of cold storage infrastructure and delivery logistics for the vaccine.

PCCI is likewise consulting with its local chambers on possible vaccination centers where these facilities may be put up.

The group said government partnership will entice private sector investment in the cold chain delivery system.

The Department of Health (DOH) earlier said it plans to put up four cold storage facilities and two walk-in freezers in Metro Manila, as the metropolis will become the central hub for the storage of COVID-19 vaccines in the country.

DOH undersecretary Maria Rosario said DOH is also planning to establish cold chain hubs in other strategic areas in the country for storing the vaccines prior to distribution to facilities. DOH is looking to have one cold storage each in Bicol, Cebu, and Zamboanga.

Vergeire said talks with the private sector on assisting in the establishment of cold storage facilities across the country are ongoing.

She earlier said DOH is eyeing cold storage facilities nationwide, ideally in every region, to ensure proper storage for COVID-19 vaccines.

Vergeire said the type of cold storage facility needed will depend on the type of SARS-Cov 2 vaccine to be approved. Different SARS-Cov 2 vaccines have varying cold storage requirements, from ultra-low temperature conditions of about -70°C to the usual temperature used for cold storage.

SARS-Cov 2, the virus that causes the COVID-19 disease, was first detected in Wuhan, China in December 2019.

DOH is currently using the storage facility of the Research Institute for Tropical Medicine as the national vaccine storage facility.

Philippine Ambassador to the United States Jose Manuel Romualdez earlier said the Philippines was not yet ready for the logistical challenges of handling millions of COVID-19 vaccine doses by January 2021, especially Pfizer's vaccines as they require temperatures of about -75°C and can be stored in a refrigerator for only up to five days before they expire.

The Philippines is currently in talks with various vaccine manufacturers in different countries to secure vaccine doses. These include China's Sinovac Biotech, Britain's Oxford-AstraZeneca, the United States' Pfizer-BioNTech and Moderna Inc.-Arcturus Therapeutics, Russia's Gamaleya, and Serum Institute of India's Novavax.

In addition, the Philippines has requested the World Health Organization's (WHO) Covax Facility, a global initiative that brings together governments and manufacturers, to ensure the COVID-19 vaccines reach those in greatest need.

WHO last December 19 announced the Covax Facility had secured 2 billion doses for 190 countries, including the Philippines. - ***Roumina Pablo***

PEZA investments fall in 11 months of 2020

INVESTMENTS in the Philippine Economic Zone Authority (PEZA) from January to November 2020 fell 19% and projects declined 40% compared to the same period last year.

PEZA said it generated as of November 2020 about P88.341 billion in investments with 300 projects registered, lower by 19% and 40%, respectively, from a year ago.

Comparatively, for the period January-November 2019 PEZA recorded P109.194 billion in investments and 496 registered projects, the agency said in a statement.

PEZA also generated US$45.085 billion from exports as of October 2020, which is 0.6% lower than the $45.340 billion in exports reported in the same period last year.

In terms of jobs generated, PEZA said it recorded 1.541 million jobs as of October 2020, down 2% from the 1.573 million jobs generated in the same period last year.

PEZA director general Charito Plaza said that PEZA has, like other investment promotion agencies (IPAs), "experienced a decline in investment applications this 2020 which can be attributed the global pandemic and the localized lockdowns, and also the uncertainties brought by the pending CREATE [Corporate Recovery and Tax Incentives for Enterprises Act] legislation."

But Plaza said PEZA remains "on top of its mandate" and continues to "think out of the box and [do] great balancing acts."

Among these acts is calling for the retention of the current tax incentives of export-oriented companies, as the tax regime will be changed and rationalized if CREATE is passed into law.

"We continue to be positive about opportunities for the Philippines to attract trust and confidence of investors and business groups whether in terms of new or expansion projects," she added.

PEZA cited a recent Philippine Statistics Authority (PSA) report, stating that among IPAs, only PEZA "registered year-on-year growth in foreign investment commitments during the July-to-September period with P20.3 billion, up 97 percent from P10.3 billion last year."
