Computerization leads BOC 10 priority projects for 2022

- Bureau of Customs priorities this year include computerization and implementing an ecommerce program
- Full operation of the Authorized Economic Operator program is also eyed
- Revenue collection will be improved by tapping non-traditional sources such as auctions and other modes of cargo disposal

THE Bureau of Customs (BOC) has identified 10 priority projects for 2022,

led by implementation of its computerization program.

Implementing a Customs e-Commerce program; enhancing learning and development for employees; and fully operationalizing the Authorized Economic Operator (AEO) program are also part of the program. Those are in addition to:

- Sustainment of integrity and quality management system
- Enhancement of trade facilitation
- Improvement of revenue col-Turn to page 4

ATA Carnet takes effect April in PH

- The Convention on Temporary Admission, also known as the ATA Carnet System, is set to take effect in the Philippines on April 17, 2022
- ATA Carnet is an international scheme that allows the duty-free and tax-free importation of goods for up to one year
- It cuts red tape by simplifying and unifying customs border crossing regulations for temporary import and export
- Philippine businesses attending trade fairs and exhibitions in
- territories parties to the Convention are among those expected to benefit from the system
- The Instrument of Accession to the World Customs Organization was deposited on Jan 17 by Philippine Ambassador to Belgium, Luxembourg, and the European Union Eduardo José A. de Vega
- It was accepted by WCO Secretary General Kunio Mikuriya
- The country is set to become the 73rd contracting party to the Convention

PH economy grows 5.6% in 2021, exceeds forecast

- The economy grew 7.7% in the fourth quarter of 2021, resulting in a 5.6% full-year growth in 2021
- The 2021 GDP was a rebound from the historic 9.6% contraction in 2020 and higher than the government's revised forecast of 5% to 5.5% growth for 2021
- The government forecasts a 7% to 9% GDP growth in 2022

THE Philippine economy grew 7.7% in the fourth quarter of 2021 asCOVID-19 cases fell and more businesses opened at full capacity, pushing full-year 2021 growth to 5.6%, according to the Philippine Statistics Authority.

The full-year gross domestic product was a rebound from the historic contraction of 9.6% in 2020 that was due to the effects of the COVID-19 pandemic. It is also higher than the Development Budget Coordination Committee's (DBCC) revised forecast of 5% to 5.5% growth for 2021. GDP growth last year was, however, slower than the 6.1% growth recorded in pre-pandemic 2019.

The fourth quarter GDP growth was also higher than the third quarter's revised growth of 6.9% from 7.1%, and faster than the 8.3% contraction recorded in

the fourth quarter of 2020.

COVID-19 cases saw a decline in the fourth quarter of 2021, allowing for more business to open at full capacity.

For full-year 2021, the industry and services sectors grew 8.2% and 5.3%, respectively, representing a strong rebound from the contraction experienced in 2020. The agriculture sector recorded a slight decline of 0.3%, brought about by continued challenges such as the African Swine Fever and typhoons that affected agricultural production.

On the expenditure side, private consumption grew by 4.2%, a stark reversal from 2020's deficit of 7.9% while government expenditure also expanded by 7%.

External trade recovered at a faster pace in 2021 with exports growing at 7.8% from a 16.3% decline in 2020, and imports improving 12.9% from a 21.6% drop in 2020.

Investments likewise grew 19% in 2021, rebounding from a 34.4% decline in 2020, supported by a 37.4% improvement in public construction.

With the 2021 GDP growth, Socioeconomic Planning Secretary Karl Kendrick Chua in a statement said "the stage is now set for growth to accelerate in 2022."

The DBCC forecasts a 7% to 9% full-year GDP growth in 2022.

4 ASEAN countries launch live online customs declaration exchange with PH

- The Philippines can now exchange the electronic ASEAN customs declaration document (ACDD) with 4 ASEAN countries using the ASEAN Single Window
- Cambodia, Myanmar and Thailand started exchange of the live e-ACDD with the Philippines on January 21, 2022, while Malaysia and the Philippines began the same on January 25, 2022
- In February 2022, a stakeholder consultation will be conducted to finalize the draft customs memorandum order covering data protection, regulation of access and network security, and continuous improvement of the ACDD portal to meet future needs

THE Philippines can now exchange the electronic ASEAN (Association of Southeast Asian Nations) customs declaration document (ACDD) with Cambodia, Malaysia, Myanmar and Thailand using the ASEAN Single Window (ASW).

Cambodia, Myanmar and Thailand agreed to exchange the live electronic ACDD with the Philippines starting January 21, 2022, while Malaysia approved the live ACDD exchange with the Philippines beginning January 25, 2022, the Bureau of Customs (BOC) said in a statement.

The ACDD is a multipurpose docu-

ment used to facilitate the exchange of export declaration information among ASEAN member states. BOC said the electronic ACDD supports the customs authority in the importing country to carry out its risk management activities.

The ASW, meanwhile, is the regional initiative to speed up cargo clearance and promote regional economic integration by enabling the electronic exchange of border documents among the 10 ASEAN member states.

Aside from the ACDD, the ASW allows the electronic exchange of trade documents such as the electronic Certificate of

Origin Form D under the ASEAN Trade in Goods Agreement, and the electronic phytosanitary and animal health certificates that are planned to be exchanged soon.

In December 2020, Cambodia, Myanmar and Singapore started exchanging the ACDD through the ASW, followed by Malaysia and Thailand from March 31, 2021. The remaining ASEAN member states were expected to join the live operation within 2021.

In August 2021, BOC said it completed the bidding of its ACDD System, which when implemented would enable the Philippines to electronically exchange

ACDD on the ASW and help the country digitize trade processes and maximize the potential of intra-ASEAN trade.

BOC said a stakeholder consultation will be conducted in February 2022 to finalize the draft customs memorandum order covering data protection, regulation of access and network security, and the continuous improvement of the ACDD portal to meet future needs.

Awareness campaigns on the use of the portal, such as virtual training and audio-visual presentations, will also be provided by BOC in coordination with the United States Agency for International Development ASEAN Policy Implementation Project.

BOC earlier said the ACDD portal, which connects to the ASW System to TradeNet, would be formally launched in January 2022.

TradeNet is the country's national single window, which is a prerequisite to connect to the ASW.

Currently, electronic certificates of origin can be exchanged by Philippine exporters with other ASEAN member states. BOC and other government agencies are also working to onboard trade regulatory government agencies to TradeNet to allow online application for import and export permits.

BOC, DA agree to share trade intelligence

- A data sharing agreement allows the Department of Agriculture and Bureau of Customs to share critical intelligence information for swift action
- The agreement strengthens both agencies' coordination on inspection and control procedures to ensure food safety and collection of correct customs duties

THE Department of Agriculture (DA) and Bureau of Customs (BOC) signed a data sharing agreement (DSA) to facilitate exchange of data on traded agricultural commodities, primarily on unfair trade practices and surge of imports.

Signed on January 27 and governed by the Philippines' Data Privacy Act, the DSA is one of the initiatives between DA and BOC that ensures local agrifishery products will remain competitive with overseas counterparts, DA said in a statement.

Through the initiative, DA said critical and intelligence information can be shared between them and acted upon by each agency promptly. It also strengthens coordination on inspection and control procedures to support food safety and collection of the right amount of custom duties, among other mutual benefits.

"Credible and timely information is crucial in crafting policies, especially in

this digital age," Agriculture Secretary William Dar said.

Customs Commissioner Rey Leonardo Guerrero welcomed the initiative, noting BOC will ensure the implementation of trade remedy measures on agricultural goods is backed by solid and timely data.

In October last year, DA and BOC also signed a deal to implement a new set of measures to curtail the entry of smuggled agricultural commodities and guarantee an optimum level of food safety.

BOC jacks up 2022 internal revenue target to P699B

- The Bureau of Customs has increased its 2022 internal collection target to P699 billion
- This is on account of a requirement to collect additional revenues for VAT refund
- BOC's official revenue goal is P679 billion for 2022

THE Bureau of Customs (BOC) is confident it will hit its P679-billion collection target for 2022 and has now jacked up its internal goal to P699 billion.

The higher internal target is on account of the agency being required to collect additional revenues for valueadded tax refund, according to Customs commissioner Rey Leonardo Guerrero in an online media briefing on January 27.

The P679-billlion official target is 10.1% higher than the 2021 goal of P616.749 and 5.1% more than the P645.765-billion actual collection for the same period.

Despite the pandemic, the customs bureau has been surpassing its annual revenue collection targets since 2020. It earlier attributed its performance to "improved valuation, intensified enforcement operations against illegal importations, improved compliance by traders to customs laws, the gradual improvement of importation volume, and the government's effort in ensuring unhampered movement of goods domestically and internationally considering the pandemic situation."

on 38.3% imports surge; exports up 7.1% trade soars

- Philippine merchandise trade re $corded its \, 11^{th} consecutive \, month$ of improvement, registering a 25.4% increase in December
- Trade deficit in December increased 112.8% to \$5.214 billion from a deficit of \$2.45 billion year-on-year
- Imports rose 38.3% while exports grew 7.1%
- Electronic products remained the country's top imported and exported commodity
- The top major types of goods for imports were raw materials and intermediate goods, and those for exports were manufactured goods

PHILIPPINE merchandise trade recorded its 11th consecutive month of improvement in December 2021, registering a 25.4% increase as both imports and exports grew during the period.

Trade in December 2021 amounted to US\$17.75 billion, higher than the \$14.158 billion posted in December 2020, according to preliminary data from the Philippine Statistics Authority.

Of the total, 64.7% were imported goods, while the rest were exported goods.

Trade deficit in December 2021 increased 112.8% to \$5.214 billion from a deficit of \$2.45 billion in December 2020.

Imports

Imports amounted to \$11.48 billion, 38.3% higher than the \$8.304 billion recorded in the same period in 2020.

The annual increment of imports was due to the increase in nine of the top 10 major commodity groups, which was led by medicinal and pharmaceutical products with a 615.3% annual increase. This was followed by mineral fuels, lubricants, and related materials, which rose by 146.1%, and cereals and cereal preparations which rose by 47.7%.

For the period January to December 2021, imports grew 31.1% to \$117.78 billion from \$89.81 billion in 2020.

24/7 Terminal Operations

Exports likewise grew 7.1% to \$6.27 billion in December 2021 from \$5.854 billion in the same month in 2020.

Of the top 10 major commodity groups in terms of the value of exports, seven recorded annual increases led by coconut oil (135.2%). This was followed by other manufactured goods (53.5%), and chemicals (43%).

From the period January to December 2021, exports rose 14.5% to \$74.64 billion.

Among commodity groups, electronic products remained the country's top import, with a share of \$2.71 billion or 23.6% of the total import bill in December 2021. It was likewise the top exported commodity, accounting for \$3.67 billion or 58.5% of the total export bill.

By major type of goods, imports of raw materials and intermediate goods still accounted for the largest share to the total imports with \$4.72 billion or 41.1% share in December 2021.

Manufactured goods, meanwhile, continued to contribute the biggest share to total exports in December 2021 with \$5.27 billion or 84.1% share.

Imports of personal protective equipment (PPE) and medical supplies, including COVID-19 vaccines, surged 2,319.4% to \$754.74 million in December 2021. The total import for COVID-19 vaccines was valued at \$722.83 million in December 2021.

Exports of PPE and medical supplies, on the other hand, continued to drop 67.9% to \$1.07 million in December 2021, the 11th consecutive month of decline.

By major trading partner, exports to the US comprised the highest export value amounting to \$1.01 billion or a share of 16.1%. This was followed by China, \$925.15 million; Hong Kong, \$861.61 million; Japan, \$859.39 million; and Singapore, \$441.92 million.

For imports, China remained the country's biggest supplier with \$2.14 billion or 18.7% share to the total. This was followed by South Korea, \$1.02 billion; Japan, \$971.39 million; Indonesia, \$882.08 million; and US, \$877.50 million.

DOTr to unvaxxed workers: Get jabbed in 30 days or no public transport ride in NCR

- Unvaccinated and partially vaccinated workers will be given only 30 days to continue riding public transportation and public utility vehicles in the National Capital Region
- Workers who will remain unvaccinated won't be barred from their workplaces but won't be allowed to use public transportation
- They can use active transport, private vehicles, or company shuttle services

UNVACCINATED or partially vaccinated workers will only have a 30-day window to continue riding public transportation in the National Capital Region (NCR).

Unvaccinated and partially vaccinated workers in industries and establishments allowed to operate in the NCR while the metro is under Alert Level 3 will be given only 30 days from January 26, 2022 to continue riding public transportation and public utility vehicles (PUVs) to enter, exit, and go around the metropolis, according to the Department of Transportation (DOTr).

The decision was arrived at in an interagency meeting on January 21 among Department of Labor and Employment (DOLE) Secretary Silvestre Bello III, Department of Interior and Local Government (DILG) Secretary Eduardo Año, and Transportation Secretary Arthur Tugade after looking into the country's vaccination data. Computerization leads BOC 10 priority projects... Continued from page 1

- Enhancement of employee welfare program
- Implementation of organizational restructuring
- Enhancement of performance management system

In an online media briefing on January 27, Planning and Policy Research Division acting chief Atty. Noemi A. Garcia said the top priority of computerization is part of the agency's goal to fully automate services. BOC this year aims to improve its support services by establishing an administration back office system.

As part of the World Bank-funded Philippine Customs Modernization Program, BOC will also establish a remote image analysis center.

Under the goal of developing competencies of customs employees, learning and development programs will be enhanced with the establishment of learning facilities and systems for e-learning and knowledge management.

Leadership and management trainings will be given focus to ensure top officials will be effective in accomplishing the bureau's strategic activities.

Focus on AEO program

To continue upon earlier developments, BOC this year aims to fully operationalize its AEO program, which was launched in December 2019.

AEO is an internationally recognized accreditation that indicates a company's role in the supply chain is secure and reliable, and that any

Customs controls and procedures are efficient and compliant.

An AEO refers to an importer, exporter, customs broker, forwarder, freight forwarder, transport provider and any other party involved in the international movement of goods, in whatever function, accredited by the BOC as complying with the World Customs Organization's SAFE Framework of Standards to Secure and Facilitate Global Trade (SAFE Framework) or equivalent supply chain security standards.

This year, BOC will grant accreditation to top importing companies while at the same time complete the construction of its AEO office.

The agency will actively participate in the ongoing development of an AEO mutual recognition arrangement (MRA) with Association of Southeast Asian Nations member countries.

An MRA refers to a formal document between two or more customs administrations outlining the circumstances and conditions for recognizing and accepting the AEO programs of the signing parties.

BOC earlier said it would take part in meetings to develop an ASEAN AEO MRA to be completed by 2025.

Customs E-Commerce Program

In view of challenges brought by ecommerce, Garcia said BOC this year will implement a Customs E-Commerce Program to "identify and issue policies and establish systems that will enable the bureau to improve customs control for business to consumer, cross border

e-commerce import or exports, without hampering trade or causing unnecessary restrictions.'

BOC will constitute a BOC e-commerce technical working group, and sign a memorandum of understanding with e-commerce platforms/companies.

Another continuing priority program is sustaining an integrity and quality management system. Garcia said BOC will sustain its program on good governance, professionalism, and integrity by developing a more comprehensive integrity development plan and maintaining its commitment to quality management.

BOC aims to attain a Performance Governance System institutionalized status, and continue and maintain its ISO 9001:2015 QMS Certification. The bureau will also create an integrity plan, risk map, and revise its code of conduct.

Trade facilitation

To enhance trade facilitation, the BOC said it will actively engage with international partners and ensure compliance with trade facilitation agreements through the WCO's Mercator Program and other WCO trade facilitation programs.

The improvement of revenue collection is another priority to be achieved by tapping non-traditional sources such as auctions and other modes of cargo disposal.

BOC said it will establish a nontraditional sources revenue monitoring group and create a dashboard or system for collecting revenue from tentatively released goods.

It will likewise enhance its employee welfare program. Garcia said BOC will pursue programs that promote the health and safety of employees especially during this time of pandemic. Employees will be provided with rewards and incentives for their outstanding contributions to further motivate them to raise their productivity

In line with this, BOC will establish a PRAISE Committee to ensure rewards for employees and propose guidelines on employee rewards and incentives pursuant to Republic Act 9335 or the Attrition Act of 2005.

Another priority is implementing organizational restructuring to update BOC's existing rationalization plan and revising staffing pattern to further improve its operational efficiencies.

BOC will produce studies and projects on how to further organize its offices and units to produce a more professional and highly efficient workforce.

Lastly, the agency will enhance its performance management system by introducing automation, issuing revised polices and regulations, and reorienting BOC personnel on its Strategic Performance Management System.

Since 2019, BOC has been identifying 10 priority programs yearly geared toward accomplishing its organizational and operational targets for the year.

For its 10-point priority program for 2021, BOC said it completed 88.94% of its target activities, the highest completion rate since 2019. - Roumina Pablo

ATA Carnet takes effect April...

Continued from page 1

The Convention on Temporary Admission, also known as the ATA Carnet System, is set to take effect in the Philippines on April 17, 2022, paving the way for the duty-free and tax-free importation of goods for up to one year.

The development follows the deposit of the Instrument of Accession on January 17 by Philippine Ambassador to Belgium, Luxembourg, and the European Union Eduardo José A. de Vega and accepted by World Customs Organization Secretary General Kunio Mikuriya at the WCO headquarters in Brussels, Belgium.

The Philippines is set to become the 73rd contracting party to the Convention.

The ATA Carnet is an international customs document that contains pre-prepared unified customs declaration forms

to be used at each customs border offices and serves as a guarantee to customs duties and taxes, according to the International Chamber of Commerce (ICC).

Sometimes referred to as the "passport for goods," ATA is an acronym of the French and English words "admission temporaire/temporary admission," while carnets are referred to as "passports for goods" or "merchandise passports".

Philippine businesses attending trade fairs and exhibitions in territories that are parties to the Convention are among those expected to benefit from the Convention.

The deposit of the Instrument of Accession follows the Senate's concurrence in November 2021 with the accession to the Convention on Temporary Admission and its various Annexes, which constitute the international codification of the ATA Carnet system.

The Senate's concurrence came after President Rodrigo Duterte signed the Convention on April 28, 2021.

Senate Committee on Foreign Affairs chairman and Senator Aquilino Pimentel III earlier said the treaty would be advantageous to the Philippines because it would increase the efficiency and productivity of the Bureau of Customs (BOC)

With the codified ATA Carnet system, Pimentel said BOC would no longer need to use valuable time and resources processing temporary admission of scientific, professional and other goods and equipment.

He said BOC would only need to rely on and monitor the ATA Carnets, which would also guarantee full payment of applicable duties and taxes should the temporarily admitted goods fail to be totally re-exported.

The Department of Trade and Industry earlier pointed out that the provisions of the ATA Carnet conform to the provisions of the World Trade Organization's Trade Facilitation Agreement, and that its principles are already provided under Republic Act No. 10863 or the Customs Modernization and Tariff Act.

Trade facilitation tool

Established under the ATA Convention and the Istanbul Convention as a trade facilitation tool, ATA Carnets cut red tape by simplifying and unifying customs border crossing regulations for temporary import and export, according to the ICC.

The Chamber said that with the ATA Carnet, exhibitors, salesmen, artists, athletes, TV crews, technicians, event participants and business travellers may:

- travel through customs without paying import duties, taxes at each customs border office
- use one unified document for all declarations at home and abroad
- use one document for multiple destinations and trips throughout its one-year validity
- make advanced customs arrangements at predetermined costs

ICC said ATA Carnets cover almost everything, as defined in 11 annexes to the Istanbul Convention. ATA Carnet are mainly issued to cover:

- goods for use at trade fairs, shows, exhibitions
- professional equipment
- commercial samples
- personal effects and goods for sports purposes

IMPORTANT ANNOUNCEMENT ADHOC CALL AT PHBTG FOR JPX SERVICE ETD BTG DEC 15 / ETD MNS: DEC 16

Supply chain disruption limits IKEA PH stocks

- The Swedish furniture giant acknowledged unavailability of certain items in its stores, including in the Philippines, due to the "global transport crisis"
- IKEA cited "global shortage of shipping containers, congested seaports, capacity constraints on vessels, and even lockdown in certain markets" as having caused supply challenges
- The company opened its shop in the Philippines, its biggest worldwide, covering 700,000

square feet in November 2021

SORRY, fans of IKEA. Some stocks in the Swedish furniture giant's stores, including in the Philippines, are unavailable due to the "global transport crisis".

In a statement on its Facebook page titled "We're all in the same boat", IKEA, said: "The COVID-19 outbreak disrupted the global movement of supply and goods for many business, including the IKEA Philippines."

IKEA opened its shop in the Philippines, its biggest worldwide, covering 700,000 square feet in November 2021.

The company acknowledged the unavailability of certain items due to challenges such as "global shortage of shipping containers, congested seaports, capacity constraints on vessels, and even lockdown in certain markets."

But the company said "stock availability is improving day by day."

Supply chain issues that rocked 2021 look set to continue into 2022 as the world struggles to deal with uncertainty over COVID-19 and the new variants associated with it, according to a recent report

from Transport Intelligence (Ti) Insight.

The whitepaper said the COVID crisis has led to disruption of production, especially across Asia, as a result of the impacts of government lockdowns, a coal shortage, and difficulty among many emerging market exporters in accessing trade finance, which is critical to the functioning of many global supply chains.

"This challenging manufacturing environment has been exacerbated by 'lumpy' demand from Western customers, struggling to understand their own markets. This has resulted in a stop-start pattern to both orders and fulfilment, wreaking havoc with inventory management and, most egregiously, with the capacity planning of shipping lines," the report said.

MSC, Lufthansa jointly bid for Italian airline

- Mediterranean Shipping Company (MSC) is joining Lufthansa in an attempt to acquire a majority stake in Italy's ITA Airways
- MSC's interest in ITA Airways derives from the possibility of activating synergies with Lufthansa in the passenger and cargo sectors
- MSC and Lufthansa are asking for a 90-day period for exclusive talks and due diligence from the Italian government

CONTAINER shipping liner group Mediterranean Shipping Company (MSC) is joining Lufthansa in an attempt to acquire a majority stake in ITA Airways, formerly the Italian flagship airline Alitalia.

MSC in a statement said that its interest in ITA Airways derives from the possibility of activating synergies with Lufthansa in the passenger and cargo sectors.

MSC and Lufthansa, the flag carrier and largest airline of Germany, are Turn to page 12

Barcelon keeps Philexport chairmanship for 2022-2023

- George Barcelon is re-elected chairman of the Philippine Exporters Confederation, Inc.'s Board of Trustees for 2022-2023
- Other top posts are held by reelectionists William Co, Sergio Ortiz-Luis, Jr., Luis Sicat, and Bernardo Benedicto III

GEORGE Barcelon was recently re-elected chairman of the Philippine Exporters Confederation, Inc.'s (PHILEXPORT) Board of Trustees and as trustee for the footwear and leathergoods sector for 2022-2023.

Trustee for the associate sector Wil-

liam Co was re-elected vice chairman.

Keeping his post as president is Sergio Ortiz-Luis, Jr., who is also representing the resource-based sector. Luis Sicat, trustee for the fine jewelry and fashion accessories sector, will continue to serve as corporate secretary.

Representing the metals sector, Bernardo Benedicto III was re-elected as treasurer.

Elected Board members were Engr. Eunina V. Mangio, associate sector; Dr. Francis C. Chua, automotive and automotive parts and components sector; Oscar A. Barrera, chemicals sector; Ferdinand A. Ferrer, electronics sector; Roberto C.

Amores, fresh and processed food sector; Myrna C. Bituin, furniture sector; Diana H. Santos, garments sector; Milagros L. Lacson, holiday decors, gifts and premiums sector; Apolinar E. Aure, housewares sector; Jon Mykel V. Teodoro, information technology, products and services sector; Apolinar G. Suarez, Jr., non-metallic mineral manufactures sector; Robert M. Young, textiles and fabrics sector; and Dr. Guillermina T. Gabor, tourism sector.

"Being at the forefront of Philippine export development and promotion, PHI-LEXPORT remains committed to deliver its mandate especially as we reach our 30-year milestone this year. For as long as our resources and mandate will allow, we remain at the service of the industry and its stakeholders as we champion exports as the country's major economic driver," Barcelon said.

For his part, Ortiz-Luis said: "The organization continues to evolve to meet the ever-changing market demands and realities especially as we transition towards the technology-based fourth industrial revolution... So far despite the disruptions, we are able to deliver export support with significant help from government and private sector cooperators and partners, including our members who had been the major driver behind our zeal to serve."

Exciting Sector

By HENRIK BATALLONES SCMAP Marketing and Communications Executive

SCMAP PERSPECTIVE

THERE'S always been talk about how exciting it is to be in the supply chain sector, especially as more people understand the critical role it plays in keeping businesses competitive.

Certainly there has been talk in the last couple of years, as COVID-19 upended economies around the world, consumption patterns changed, and businesses pivoted and innovated to survive.

The past few months have certainly been exciting, as we saw major industry players further consolidate their presence. A few weeks back we heard that global shipping line Maersk was acquiring LF Logistics. A few months ago, DSV Panalpina acquired the logistics operations of Agility. This mirrors, on a larger scale, moves that we've seen in the Philippine market over the

past few years, with major conglomerates entering the supply chain sector through acquisitions (see SM acquiring 2GO), joint ventures (see DHL and JG Summit) and investments (see Fast Group's shopping spree).

Of course, it's not all about longestablished players. E-commerce and last mile logistics continue to drive buzz among investors and observers, tapping into stillevolving markets with tremendous growth potential. (In the Philippines alone, our online economy doubled in 2021; it now stands at USD17 billion, according to the latest e-Conomy SEA report.) We have new titans such as Shopee and Grab—and I should also mention the blockbuster merger between Indonesian companies Gojek and Tokopedia—as well as various startups looking to leverage technologies to bring more value to its partners and customers.

It's this quest for added value that drives all this activity in the supply chain space. Some companies would love to be able to portray themselves as a onestop shop to principals, handling most, if not all, facets of physical distribution and storage. Other companies are keen to acquire logistics expertise to complement their core competencies. (Think of how the 2GO acquisition benefits SM's nationwide retail network.) There's a greater opportunity for innovations and best practices to spread to more enterprises and supply chains.

But ultimately, the pandemic has also highlighted more inefficiencies that have arguably led to the delays and bottlenecks that we've seen in the past couple of years, not to mention operational difficulties exacerbated by shifting lockdowns and general uncertainty. The big players' response: greater economies of scale! That's an easier sell.

The potential downside, of course, is the loss of expertise. As logistics players consolidate, we risk losing talent that can contribute greatly to a supply chain's efficient movement. We may also lose local know-how that remains important even as goods are increasingly moved from one point of the globe to another. (At the height of the pandemic the talk was of shrinking supply chains to a regional or national level to ensure less disruption. What we've seen now seems to be an opposite reaction.) There's also the question of the impact of these moves, in the long run, to logistics frontliners.

How can their job security be ensured and protected?

The other question I have in mind is how all these moves will benefit the Philippines. Sure, all the global players I mentioned earlier have a presence in the country, but are we able to take advantage of the new opportunities that present themselves? Our logistics costs remain higher than our neighboring countries. While this is partly down to our being an archipelago-more points inevitably mean more costs we still have many inefficiencies we can address to drive down costs. The proposed amendments to the Public Service Act would, among others, allow fully foreign-owned companies to invest in various points in Philippine logistics, enabling transfer of expertise and knowledge. Our support for this, as outlined in a joint position paper with other business groups last week, is with the hope that we can fully take advantage of these opportunities and ensure our supply chains remain competitive and world-class.

Henrik Batallones is the marketing and communications director of SCMAP, and editor-in-chief of its official publication, Supply Chain Philippines. More information about SCMAP is available at scmap.org.

P80M in smuggled goods seized in Bulacan

- The Bureau of Customs confiscated imported unregistered mosquito coils, motorcycle parts/accessories, kitchenware, TV antennas, power tools, infringed toys, and books, among others
- The smuggled goods will be subjected to seizure and forfeiture proceedings for violation of the Intellectual Property Code and

Customs Modernization and Tariff Act

VARIOUS smuggled goods worth an estimated P80 million were seized by the Bureau of Customs during a joint operation at a warehouse in Pandi, Bulacan.

The operation was conducted on January 26 by operatives from the Customs Intelligence and Investigation Service-

Manila International Container Port, National Bureau of Investigation, and Philippine Coast Guard who were armed with a letter of authority and mission order.

Discovered were imported unregistered mosquito coils, motorcycle parts/accessories, kitchenware, TV antennas, power tools, infringed toys, and books, among others.

The smuggled goods will be subjected to seizure and forfeiture proceedings for violation of Republic Act (RA) No. 8293 or the Intellectual Property Code of the Philippines, and Section 1113 (Property Subject to Seizure and Forfeiture) of RA 10863 or the Customs Modernization and Tariff Act.

In 2021, BOC recorded 1,006 seizures of shipments with an estimated value of P28.426 billion.

DOTr to unvaxxed workers: Get jabbed...

Continued from page 3

The decision intends to protect unvaccinated and partially vaccinated workers who use public transportation from contracting COVID-19 and later developing severe infections, DOTr Undersecretary for Administrative Service Artemio Tuazon, Jr. said in a statement.

"This is to ensure that only those fully protected against COVID-19 are safe from using public transport. Data show that workers who remain unvaccinated against the virus that causes COVID-19 are more vulnerable to severe and critical infections," Tuazon, who is also an official representative to the IATF, explained.

Tuazon said that 30 days following the announcement of the new protocol, only workers in NCR who are fully vaccinated (completed the two-dose primary series vaccination such as for the Pfizer, AstraZeneca, Sinovac, or Moderna brands; or the one-dose vaccination such as for the Janssen brand) will be allowed to use public transportation.

Within the 30-day window, partially vaccinated workers are still allowed to board public transportation. However, they will also not be allowed to use public transportation if vaccination remains incomplete after the 30-day window.

Tuazon added that the joint decision of DOLE, DILG, and DOTr supports the government's ongoing thrust to ramp up vaccination efforts, especially amid the high transmission of the Omicron variant.

"This joint decision is also meant to support the vaccination drive of the entire government. We want our workers to get fully vaccinated especially now that there is no longer a shortage of COVID-19 vaccines, and there is a threat of highly transmissible variants of the virus. We are giving our workers the time to get

themselves vaccinated," Tuazon added.

The DOTr official, however, clarified that the joint decision is not discriminatory.

"As jointly decided by the DOLE, DILG and DOTr, workers who will remain unvaccinated 30 days after the announcement are not being barred from their workplaces. They are simply not allowed to use public transportation, but can still use other means such as active transport, private vehicles, or company shuttle services," Tuazon said.

DOTr started implementation of the controversial "No Vaccination, No Ride" policy on January 17. Under DOTr Department Order (DO) No. 2022-001, public transportation access is limited to vaccinated individuals when NCR is under Alert Level 3 status or higher.

The policy applies to all domestic travel to, from, and within NCR via public transportation by land, air, and sea while the area is placed under Alert Level 3 status or higher.

Exempt are persons with medical conditions as evidenced by a signed medical certificate; and those who will procure essential goods and services as evidenced by a barangay health pass and other appropriate proof.

DOTr in a separate statement clarified that individuals who have received only the first dose but are out to do essential activities such as go to work, have a medical examination, apply for license or passport, or buy food and other necessary goods are exempted from the policy.

DOTr and DOLE also clarified that employees of industries allowed to operate under Alert Level 3 can still board public transport, even if unvaccinated, provided the person can present proof that he/she is going to work, such as a company ID or a Certificate of Employment.

Singapore logistics technology firm to expand PH presence

- Zyllem's cloud-based technology helps enterprises digitize their entire logistics network for increased efficiency and transparency
- e-commerce in the Philippines experienced a 93% growth in gross merchandise value from US\$9 billion in 2020 to \$17 billion in 2021
- The logistics transport service sector represents an \$11 billion market opportunity that is ripe for disruption through digitalization

GLOBAL logistics technology provider Zyllem, which helps enterprises control their entire distribution in one integrated platform, has announced plans for further expansion in the Philippines.

Singapore-based Zyllem said it is offering its cloud-based technology to enable

enterprises to digitize their entire logistics networks for more efficient, simplified, and transparent operations as e-commerce booms in the country.

Zyllem chief operating officer and cofounder Lisa Nguyen said the Philippines, with its explosive e-commerce growth, will benefit from digitalizing its distribution network.

She said e-commerce in the Philippines experienced a 93% growth in gross merchandise value from US\$9 billion in 2020 to \$17 billion in 2021, while the logistics transportservice sector represents an \$11 billion market opportunity that is ripe for disruption through digitalization.

Nguyen said local businesses are increasingly seeing the need to provide better and faster services and to optimize their logistics network to meet their customers' requirements.

"The Philippines presents an exciting opportunity to help companies digitize

and optimize their logistics network, eliminating legacy systems, despite the numerous unique logistical challenges that the country presents," she added.

Logistics in the country presents a tremendous challenge due to its geographic makeup, which relies heavily on maritime transport to move goods domestically and internationally.

While road transport is mainly used to move goods to and from ports within each island, infrastructure is still poor with congested urbanized areas. Furthermore, cash on delivery is still a common method of payment for customers and businesses. All of this makes for a low-output environment where shipment delays are frequent, customers are unsatisfied, and providers are performing poorly, the company said.

"Logistics networks are often fragmented with companies having to manage multiple third party logistics partners and middlemen. Zyllem solves operational pain points with data gathered and fed into a unified dashboard, where customers will be able to take control of their logistic network and streamline their operations," according to Joanna Pawluczuk, head of sales at Zyllem.

The company is able to optimize routes and reduce time spent on planning by 85%, allowing drivers to complete up to 30% more deliveries per day for an enhanced customer experience.

The firm, which started in 2014 as a logistics technology startup in Singapore, has developed an advanced and accessible logistics platform that is used by enterprises across the world in different industries such as retail, distribution, logistics, and e-commerce.

It counts Zuellig Pharma, Metro Drug, Airspeed, and Suy Sing among its key clients and is actively seeking to acquire more customers in the market.

MSC, Lufthansa jointly bid...

Continued from page 5

asking for a 90-day period for exclusive talks and due diligence from the Italian government, which currently controls ITA Airways.

Lufthansa said it will use the 90-day period to "explore all possible options for cooperation, including a possible equity investment."

ITA Airways in a release on January 24 on its website confirmed it "has received an Expression of Interest from the MSC Group and Lufthansa to acquire the majority of ITA Airways. The MSC Group has agreed with Lufthansa its participation in the partnership on terms to be defined during the Due Diligence."

The release further stated: "Both the MSCGroup and Lufthansa have expressed

the wish that the Italian Government maintains a minority stake in the Company. Furthermore, the MSC Group and Lufthansa have requested 90 days of exclusivity to work on this Expression of Interest."

ITA Airways said the board of directors will examine the details of the offer in an upcoming meeting.

ITA Airways, or Italia Trasporto Aereo S.p.A., was created in late 2021 as the successor to the defunct Italian flag carrier Alitalia. ITA operates flights to more than 40 destinations, with around half being domestic routes. Most of the international routes are in the Mediterranean area.

MSC has recently been making a number of acquisition bids as it continues to rake in bucketfuls of profit from the historic spike in container freight rates.

In the first quarter of 2022, MSC is expected to close its first ocean carrier acquisition with the purchase of a 67% majority stake in Log-In Logistica, a Brazilian shipping and logistics firm.

In December 2021, MSC signed an agreement with the French group Bolloré to acquire Bolloré Africa Logistics, a logistics provider and terminal operator in Africa, on the basis of an enterprise

value, net of minority interests, of EUR5.70 billion (\$6.43 billion).

During container shipping's greatest ever boom of the past year, other liner giants such as CMA CGM and Maersk have also invested in maritime and non-maritime acquisitions.

CMA CGM has purchased CEVA and established a freighter aircraft fleet. Maersk started its expansion into airfreight with chartered airplanes in late 2020 and now intends to acquire global freight forwarder Senator International, which is mainly focused on airfreight, in the first half of this year.

These activities by its competitors may have swayed MSC to show interest in ITA Airways, industry watchers said.
